DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4 are, drawn to a method for preparing compounds of formula (I),
classified in class 548, subclass 213.
- II. Claim 5 is, drawn to a compound, classified in class 548, subclass 229.
- III. Claim 6 is, drawn to a compound, classified in class 548, subclass 124+.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II-III are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the process as claimed can be used to make a materially different compound such as shown in U.S. Patent number 6,897,230.

Additionally, Groups II and III are drawn to two distinct structural formulae, i.e., formulae (V) and (VI) respectively and thus, a reference teaching Group II would not anticipate or render obvious Group III.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Carmella O'Gorman on 08/08/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

It is noted in claim 1, page 23, line 13, that "Ar is" has been repeated twice. It is suggested that applicants correct the obvious typographical error in response to this restriction requirement.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to E. Sackey whose telephone number is (571) 272-0704. The examiner can normally be reached on Monday-Friday from 7:30 am to 4:30 pm.
